HELLO I'M NICOLA

I LOVE BABIES

As a newborn photographer, I strive to capture those first few weeks and turn the resulting images into a work of fine art to be treasured forever. Newborn photography requires a large amount of planning and an insane amount of patience, and you'll be happy to know I am good at both :)

WHY YOU SHOULD HIRE A PROFESSIONAL PHOTOGRAPHER

We have stacks of props and outfits on hand, and you will receive an exclusive experience in a safe and family friendly environment - your home! We take our time to make sure you have a great time! And feel relaxed after just having your bundle of joy, while we take the reins in our safe and experienced hands.

I know myself as a mother of two beautiful boys, that my most prized possessions are the photographs of all the precious memories of my sons growing up. I will treasure forever these timeless images of my children. It is the joy I want all parents to experience.

PREPARING FOR YOUR NEWBORN SESSION

Once you decide to schedule a session with me, we will set a tentative date based on your due date.

I understand that babies rarely come when predicted and I will accommodate their personal plans for arrival.

But a due date will give us a base line. Once your baby is born, please get in touch with me and we will firm up our date and time.

We photograph baby within the first 10 days as they sleep much better, as we photograph them asleep.

The room we are photographing baby in, needs to be nice and warm. Have some water on hand..... newborn sessions make you thirsty!!

**BABIES ARE BEST
PHOTOGRAPHED IN THE FIRST
10 DAYS OF THEIR NEW LITTLE LIVES**

DURING YOUR SESSION AT HOME

Once I arrive I will set up our chosen backdrops that we have chose together beforehand while you may want to feed and sooth your baby if needed.

I start my sessions by taking some portraits of your baby in a variety of positions while they sleep.

After that we will move on to some relationship poses with thier siblings, after which I will move on to photographing your newborn with any props that you have chosen.

AFTER YOUR SESSION

Now you can look forward to seeing the beautiful images that will soon be yours. Your images will be ready to view within two weeks.

We will arrange for me to come back to view your images on a slideshow and help you select the best products/Images for you. You now have wonderful, precious images to remind you of the innocence of your newborn, and you have documented in a beautiful, meaningful way what those first few days of life were like. BLISS!
